Stolen from Swanston this afternoon between 3pm & 5.45pm (Friday 29 April). It's a pale grey Cheval Liberte 2003L with white roof. The serial number on the metal plate on the front is SY9 08DF 1096. The number plate was ST05 ENF but that's probably not on it anymore. The wheel clamp was taken with it (not sure how) but the hitch lock was cut through with some sort of power cutter.
