

## Saddles Stolen - Fortrose

Two Arabian saddles have been stolen from a yard in Fortrose - please see details below

These two Arabian Company saddles were stolen from Fortrose on Tuesday 31st May, crime report number NE 7233/11 PC 938 D. Williams. The first image below is of The Solstice endurance saddle in brown water buffalo hide. The second image is of The Sylvan GP saddle in brown leather both had sheepskin numnahs and korsteel knife edge stirrups with pink crystals. The Solstice saddle has a blood stain on the waist. Reward offered for any information leading to their return, these saddles were made to measure for my two Arabs and are of great sentimental value to me.
